# INTRODUCTION AND PURPOSE

**Mini Application World:** Our project entitled **Mini App World**, is a hub of day to day used applications. Instead of downloading multiple applications, an app which comprises of multiple applications will make our work quicker and effective. So we have integrated 4 web applications used to a person in everyday life.

# The mini applications included in the project are:

## Calculator

This free online **calculator** can be used **for basic** computations such as addition, subtraction, multiplication, division, and square roots. ...

## Notes Making App

Our note taking app helps you capture and prioritize ideas, projects and to-do lists, so nothing falls through the cracks.

## Dictionary

A dictionary app can be a handy tool. Many have features such as a word of the day to help expand your vocabulary.

## Quiz

This application is developed for educational purposes, allowing the users to prepare the multiple choice questions of various topics

# Calculator

# Calculator

This free online calculator can be used for basic computations such as addition, subtraction, multiplication, division...

# Calculator

---
